

**ANOU D**  
TECHNOLOGIES

We Ensure. You Insure.

# TAKE ON THE FUTURE

Become a technology-driven insurance company.

# Transform Today for a Successful Tomorrow.

Technology is the cornerstone of businesses today. Its role goes far beyond product design and delivery and extends to analytics-driven decision-making.

For insurance companies relying on a gamut of legacy systems, Anoud Technologies' well-engineered IT solutions deployed with the right know-how and the latest innovations can lead to improved business efficiencies.

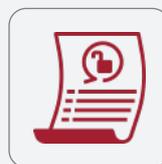

With Anoud+, we are proud to offer a best-in-class insurance platform to insurers in developed and emerging markets alike. The platform can support you to strengthen operational resilience, gain access to cutting-edge tools, and ultimately accelerate your digital transformation to compete in tomorrow's marketplace.

# Scale your Digital Transformation Journey with **ANOUD+**

Anoud+ is an integrated insurance platform that helps you digitally transform all aspects of your insurance business, from managing customer relationships, underwriting, policy administration, claims, risks, and accounting to generating insightful analytics to drive data-driven strategies.

## The **Anoud+** Advantage

### **1** Fully Integrated Platform

Automated management of end-to-end requirements.

### **2** EASY-TO-USE

User-friendly interface with the ability to rapidly introduce new products.

### **3** FUTURE-READY

Cutting-edge tools to devise a data and analytics -based strategy.

## Give your Business a Transformational Edge

Accelerate revenue generation by rapidly introducing a broad range of insurance products and services.

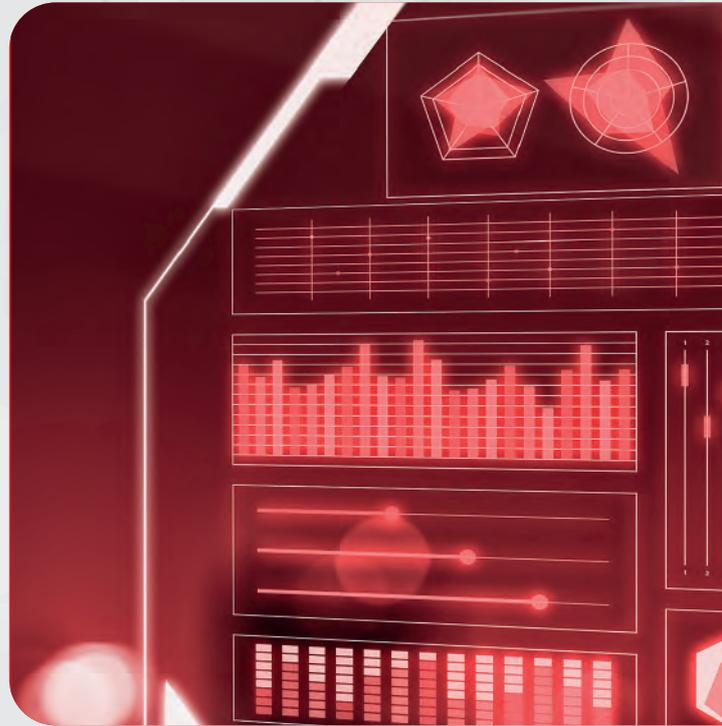

Boost engagement with customers and channel partners with a customer relationship management (CRM) module and a fully-digitised customer journey and product lifecycle.

Enhance operational efficiency and achieve cost savings by standardising, automating, and optimising processes on an integrated platform and moving to a paperless office environment.

Improve corporate controls and risk management with digitised implementation of governance, compliance and regulatory processes, strong data security and integrity, and fraud prevention systems.

## ANOUD TECHNOLOGIES

# WE ENSURE. YOU INSURE.

Anoud Technologies LLC (Anoud Tech) was established by QIC, a leading global insurance group, in close collaboration with Swiss Re, an iconic player in the global insurance and reinsurance industry.

Anoud Tech was established to accelerate the digital transformation of the insurance industry by deploying Anoud+, a best-in-class integrated insurance platform, for insurance companies in developed and emerging markets alike.

With Anoud Technologies, you have a reliable insurance technology partner who understands the dynamics of your business and has the experience and expertise to cater to your needs. A true enabler as you move into a digital world.
